Research Report on a Computer Technology Related Career

Taking a course in Computer Technology is a great way to sample what you may experience in the field. Because this is a course, learning new knowledge, skills, and attitudes may not be easy and limit your full effect in comparison to the real thing. Part of this course is learning about design related careers. This assignment is designed to allow you to pick a related career, that you may be interested in and research it, to find out what it is all about and share with the rest of the class.

Each student is to pick a unique career field, and sign-up with the instructor's sign-up sheet. There are many Computer Technology related engineering career fields to choose from and all created will be shared.

Your researched career field will require you to look up some common areas of information which will help all decide if it is something you are interested in along with all the details. The following * key information is to be included in your (one-to-two-page max career report sample) presentation in the following order:

- Job title, general description (2), responsibilities (2), and salary/wages (2)
- Related skills (2), interests (2), and values (2)
- Schooling (2), preparation (2), and requirements (2) (Association)
- Future forecast/outlook of field area (2)
- Your resources and where to go for further support (-5 if not included)

There are several resources on Mr. Franzen's site including a sample specific to this research assignment, so make sure you check it out in unit four, activity one. You may also use Prezi, Slide Share, Mind Map or similar online presentation tools, allowing you to link to wiki with each page expanding on above points.

Evaluation

Once done, give yourself a mark and have a partner review and peer mark your report and enter marks in table below.

Your selected career field: _____

Evaluation Table for Research Report on a Construction Related Career						
#	Category	Description	Mark	Self-Eval. Mark	Peer-Eval. Mark name_____	Teacher Mark
1	Content	* key information (above) is all there	20			
2	Layout	Organized, visual appealing, & easy to read	15			
3	Presentation	Content, communication, knowledge, & time	20			
		Total up your marks →	55			
		Self and peer marks out of 10
