Research on Computer/Robotics Related Career Sign-Up Sheet

With the Computer Technology and Robotics field filled with many different career opportunities, there are several options you can look into for your interested related career field. When signing up, cross off your choice and ensure that someone else has not selected your choice. If your choice is gone select a secondary career field, as you will see that person's presentation and will be shared in the Pick-up class folder.

#	Student Name	Career Selection	Computer/Robotics Related Careers
1			Aeronautic Engineering
2			Aircraft Engineer
			Automation Engineer
3			Automation technician
4			Automotive Engineer
			Bio-Engineers
5			Communications Engineer
6			Computer analyst
			Computer and Information Research
7			Scientist
			Computer Engineer
8			Computer Hardware Engineer
			Computer Network Architect
9			Computer Office Machine Repairers
10			Computer operator
			Computer Operators
11			Computer repair technician
			Computer scientist
12			Control Programmers and Operators
			Control technician
13			Electrical Engineer
			Electromechanical Engineer
14			Industrial Engineers
			Instrumentation technician
15			Lead production support technician
			Mechanical Device Engineer
16			Mechanical Engineer
			Mechatronics Engineer
17			Microelectronics Engineer
			Renewable Energy Engineer
18			Robotic process manager
			Roboticist
19			Robotics Engineer
			Robotics Technician
20			Robotics Technologist
			Satellite Engineer
21			Security engineer
			Software analyst
22			Software design
			Software Engineers
23			Software quality analyst
			System Administrator
24			Telecommunications Engineer
			Web developer
25
