

Research Report on a Technological Design Related Career

Taking a course in Technological Design is a great way to sample what you may experience in the field. Because this is a course, learning new knowledge, skills, and attitudes may not be easy and limit your full effect in comparison to the real thing. Part of this course is learning about design related careers. This assignment is designed to allow you to pick a related career, that you may be interested in and research it, to find out what it is all about and share with the rest of the class.

Each student is to pick a unique career field, and sign-up with the career's sign-up sheet. There are many Technological Design related engineering career fields to choose from to research, rough report, and share through a Google presentation. Your researched career field will require you to look up some common areas of information, which will help you decide if this is something you are interested in, as a possible future direction. The following * key information is to be included in your one-to-two-page career rough report, 33 marks and the final presentation in the following order:

- Job title, general description (2), responsibilities (2), and salary/wages (2)
- Related skills (2), interests (2), and values (2)
- Schooling (2), preparation (2), and requirements (2) (Association)
- Future forecast/outlook of field area (2)
- Your resources and where to go for further support (-5 if not included)

There are several resources on Mr. Franzen's site including a sample rough to this research assignment, so make sure you check it out also.

Evaluation

Once your presentation is done, give yourself a mark and have a partner review and peer mark your report and enter marks in table below.

Your selected career field: _____

Evaluation Table for Research Report on a Construction Related Career						
#	Category	Description	Mark	Self-Eval. Mark	Peer-Eval. Mark name _____	Teacher Mark
1	Content	* Key information (above) is all there	20			
2	Layout	Organized, visual appealing, & easy to read	15			
3	Presentation	Content, communication, knowledge, & time	20			
		Total up your marks →	55			
		Self and peer marks out of 10
