

# Landscaped Eco-System

A Local Area of Enjoyment

# Overview

- Landscape with Identified Components
- 4 Detailed Landscape Components
  - Japanese Maple Dragon Red (Tree)
  - Boxwood Green Gem (Shrub)
  - Black-Eyed Susan (Flowering Plant)
  - Robin (Animal)
- 4 Eco-system Improvements
  - Automated Sprinkler System
  - Add a Bird House
  - Use a Cedar Mulch
  - Install a Composter
- Summary
- Resources

# Landscape with Identified Components

# 4 Detailed Landscape Components

- Four major landscape components I selected are:
  - Tree: Japanese Maple Dragon Red
  - Shrub: Boxwood Green Gem
  - Flowering Plant: Black-Eyed Susan
  - Local Animal: Robin

# Japanese Maple Dragon Red

- official name
- major characteristics
- life span and growth cycle
- environment requirements
- food and nourishment
- maintenance and care

# Boxwood Green Gem

- official name
- major characteristics
- life span and growth cycle
- environment requirements
- food and nourishment
- maintenance and care

# Black-Eyed Susan

- official name
- major characteristics
- life span and growth cycle
- environment requirements
- food and nourishment
- maintenance and care

# Robin

- official name
- major characteristics
- life span and growth cycle
- environment requirements
- food and nourishment
- maintenance and care

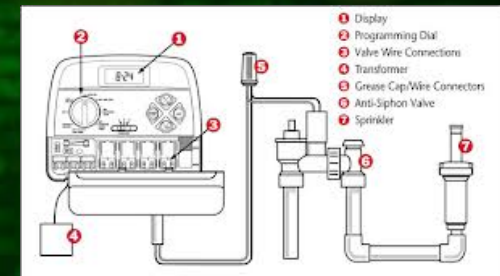

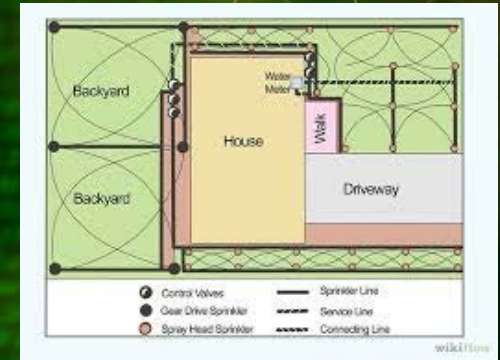

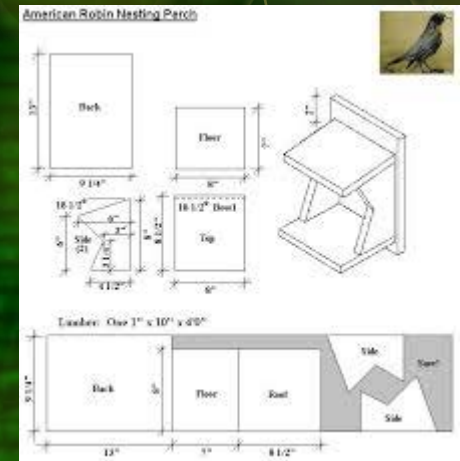

# Automated Lawn Sprinkler System

- general description
- how it can help your eco-system
- best way to implement

# Add a Bird House

- general description
- how it can help your eco-system
- best way to implement

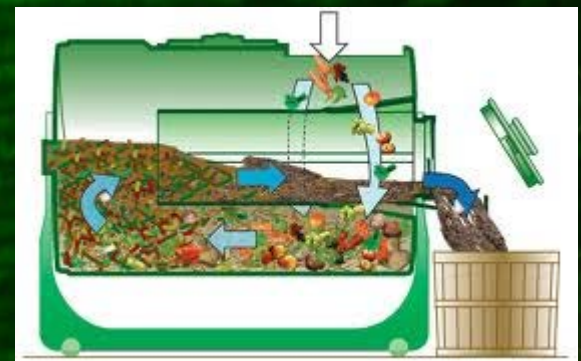

# Use Cedar Mulch

- general description
- how it can help your eco-system
- best way to implement

# Install a Composter

- general description
- how it can help your eco-system
- best way to implement

# Summary

- Looked at my selected Landscape eco-system
- Described in detail 4 components from my selected eco-system landscape, as follows:
  - Japanese Maple Dragon Red (Tree)
  - Boxwood Green Gem (Shrub)
  - Black-Eyed Susan (Flowering Plant)
  - Robin (Animal)
- Looked at 4 Eco-system Improvements that were important to implement:
  - Automated Sprinkler System
  - Add a Bird House
  - Use a Cedar Mulch
  - Install a Composter
- Learned specific details of an eco-system and ways to improve
